PROFILE

Junior software engineer with a BSc in Computer and Information Systems and hands-on full-stack experience in Python, Django, React and PostgreSQL. Completed a Cloud Computing Microsoft Azure bootcamp with hands-on training in Azure, Terraform and CI/CD. Previously supported critical systems and analyzed emergency response data for the Saudi Red Crescent Authority, including during the Hajj season.

TECHNICAL SKILLS

Programming: Python, JavaScript, Java, HTML5, CSS

Frameworks & Libraries: Django, Django REST Framework, React, Node.js, Bulma

Cloud & DevOps: Microsoft Azure (Virtual Machines, Networking, Storage, Key Vault, Database for PostgreSQL), Terraform, GitHub Actions (CI/CD), Docker

Databases & APIs: PostgreSQL, REST APIs, Postman

Tools & Platforms: Git, GitHub, VS Code, ServiceNow, Excel (dashboards and automated reporting)

Operating Systems: Linux, Windows

Core Concepts: Object-Oriented Programming, Data Structures, Agile methodologies

EXPERIENCE

Data Analyst, Saudi Red Crescent Authority (Hajj Season) *May 2025 – Jun 2025*

Mecca, Saudi Arabia

- Analyzed emergency response data to support rapid operational decisions during the Hajj season.
- Built real-time Excel dashboards and automated reporting to track key operational metrics.
- Delivered daily performance summaries to management and field teams.

Information Systems Specialist, Saudi Red Crescent Authority *Jan 2024 – Jul 2024*

Mecca, Saudi Arabia

- Resolved over 50 technical requests a day across departments, managing tickets and documentation in ServiceNow.
- Monitored system and network performance and carried out root cause analysis on recurring faults.
- Installed and updated software and configured staff devices across the organization.

IT Support Specialist (Volunteer), King Abdulaziz Hospital *Jun 2022 – Oct 2022*

Mecca, Saudi Arabia

- Provided hardware, software and networking support to clinical and administrative departments.
- Supported remote access tools and medical cloud systems, and carried out hardware upgrades.
- Contributed to internal documentation and improvements to technical support processes.

PROJECTS

Portainer on Azure | *Azure, Terraform, Docker, Docker Compose, Bash*

- Collaborated in a three-member team to deploy Portainer on an Azure Linux virtual machine using Terraform and Docker Compose.
- Automated installation, deployment and health checks with Bash scripts.
- Configured persistent Docker volumes and verified that Portainer settings were retained after container recreation.

Nature Sound Recorder *Django, DRF, React, PostgreSQL*

- Built a full-stack application for sharing and exploring nature recordings, with a RESTful API in Django REST Framework.
- Designed a PostgreSQL schema to manage users and recordings, with authenticated sessions for secure access.
- Built a clean, responsive interface with React and Bulma.

EDUCATION

Cloud Computing Microsoft Azure Bootcamp, WeCloudData *Aug 2026 – Sep 2026*

Microsoft Azure, Terraform and GitHub Actions, delivered through instructor-led sessions and hands-on labs.

Software Engineering Immersive, Saudi Digital Academy *Feb 2025 – May 2025*

12-week, 500+ hour full-stack program covering Django, React, REST APIs, data modelling and Agile team collaboration.

BSc Computer and Information Systems, Umm Al-Qura University *Aug 2018 – Mar 2023*

Mecca, Saudi Arabia

CERTIFICATIONS & LANGUAGES

Certification: PCEP, Certified Entry-Level Python Programmer (OpenEDG Python Institute)

Languages: Arabic (native), English (intermediate, spoken and written)
